

Healthcare Organization Leverages Analytics Center of Excellence (ACE), Targeting \$150M in Savings

Optimizing Kronos® Analytics to accelerate enterprise cost cutting initiative, while balancing goals for patient care

► CHALLENGE

Seeking to drive significant cost reductions without affecting the quality of patient care, this health system recognized that the most intelligent and informed path required the ability to discern which data would yield the greatest impact toward financial targets, and patient and employee satisfaction goals. Following the successful implementation of Kronos® timekeeping, scheduling and analytics in partnership with Workforce Insight, this client was committed to putting analytics at the center of its culture and strategy to continually optimize results.

► SOLUTION

Analytics Center of Excellence (ACE)

Workforce Insight's Analytics Center of Excellence (ACE) was chosen to support this organization throughout its data-driven journey toward financial and performance improvement - from initial analytics strategic planning and deployment to identifying optimal use cases, providing priority access to analytics experts and guiding strategies to build an analytics-driven culture of continuous improvement.

Key service components include:

- Analytics Assessment
- Strategic Analytics Planning
- KPI & Performance Target Definition
- Customized Performance Dashboard – Development & Deployment
- Priority Triage/Access to Analytics Experts
- Analytics Asset Library
- User Initiated Reports
- Analytics Functionality Expansion
- Progress Assessment/Adaptation
- Analytics & Industry Best Practices
- Power User Training & Guidance
- ACE Peer Forum
